

SME / R&D / Software Development

Health – ML – AAL – Mobility

- Pattern Recognition / Digital Diagnostics
- Early Risk Prediction, Prevention and Intervention
- Big Data/**AI** Technologies (e.g. **Sensor Data**)
- Management of Complex Chronic Conditions (Real-World Data)
- **Simulations** for Testing Medicines and **Medical Devices**
- Specialized in **Fall Detection**

Fall Detection / AI / Gait Analysis

Static to Dynamic

- Realization of **AI-oriented** development
- Use of ALL sensor data
- Raw (Big) **Data Analysis**
- „**Hidden**“ Pattern Search
- **Dynamic** evaluation of individual patient-data management
- **Precise Fall Risk Evaluation**

springtechno would like to...

- ...contribute value to a project / proposal
- ...complete or increase an innovative solution
- ...bring in experience and network references
- ...join a project consortium

contact and discuss the opportunities

cp.kettner@springtechno.com
