Key Digital Technologies Joint Undertaking (KDT Joint Undertaking) is a public-private European Partnership aimed at leveraging investments in the electronics sector in Europe to research and develop innovative key digital technologies. The KDT Joint Undertaking fosters research and innovation collaboration between stakeholders such as industry, public authorities, academia, and research and technology organisations, pulling together and focusing efforts. The KDT Joint Undertaking's strategy is aligned with the Horizon Europe Framework Programme and the programmes of Participating States to attract private investments and contribute to the effectiveness of public support by avoiding unnecessary duplication and fragmentation of efforts, thus contributing to the development of a strong and globally competitive industry in the European Union.

The KDT Joint Undertaking is based in Brussels, Belgium.

As part of the Multiannual Financial Framework (MFF) for 2021-2027 and in line with the Horizon Europe Framework Programme, the KDT Joint Undertaking is one of the nine Joint Undertakings established under the Council Regulation (EU) 2021/2085¹. The KDT Joint Undertaking is the successor to the former ECSEL Joint Undertaking² and supports the latter's ongoing projects.

The KDT Joint Undertaking addresses clearly defined topics that will reinforce the Union's technological autonomy in electronic components and systems, establishes the Union's scientific excellence and innovation leadership in emerging components and systems technologies, and ensures that components and systems will address Europe's societal and environmental challenges.

Members of the Joint Undertaking are the European Union through the European Commission, Member States and Associated Countries to the Framework Programme Horizon Europe on a voluntary basis, and

On 8 February 2022, the Commission proposed the 'European Chips Act', a comprehensive set of measures to ensure the EU's security of supply, resilience and technological leadership in semiconductor technologies and applications³. As part of the Chips Act, the Regulation (EU) 2021/2085 is proposed to be amended⁴ so as to increase the scope of the activities of the current KDT Joint Undertaking, proposed to be renamed 'Chips Joint Undertaking'. The renamed Chips Joint Undertaking would start its additional activities once the Chips Act regulation has entered into force. It would continue to implement the activities of the KDT Joint Undertaking as well as the largest part of the "Chips for Europe Initiative" established under the Chips Act. This would include investments into innovation and capacity building activities, such as pilot lines, design infrastructures, and competence centres.
